

Ellie Woodbridge English Student 2015/16

"School Direct has been a supportive and straightforward route into teaching. I have found that being attached to a school has been rewarding in terms of being integrated into the school community. Completing my training year at Willingdon has allowed me to develop my professional knowledge and classroom practice under the guidance of experienced mentors and tutors. With hindsight, my School Direct training year was the best route that I could have hoped for in undertaking a teacher training qualification".
