Walk/Bike to School Day Wednesday 5th October

International Walk to School Day is a global event that involves communities from more than 40 countries walking and biking to school on the same day. It began in 1997 as a one-day event. Over time, this event has become part of a movement for year-round safe routes to school and a celebration – with record breaking participation – each October. Today, thousands of schools across America – from all 50 states, the District of Columbia, and Puerto Rico – participate every October

Walking and cycling to school enables children to incorporate the regular physical activity they need each day while also forming healthy habits that can last a lifetime.

Let us know if you have walked or cycled to school. Please send any pictures to Miss Leonard
